

Air-operated 4,000 lb rolling / sliding bridge jack

Raises one end of a vehicle above the runways for wheel and brake service. Requires a compatible compressed-air supply.

Listed for 4P8S, 4P8XLT, 4P9S and 4P9XLT. Confirm the runway support, vehicle-end load and lifting points. Requires a 90–120 psi air supply.

Accessory rating: 4,000 lb. This rating does not increase the lift rating.

Included equipment and standalone accessory versions can differ. Confirm the exact model and supplied configuration before ordering.
