

Air-operated 6,000 lb rolling jack

Raises the front or rear of a vehicle for wheel service. Requires a compatible compressed-air supply.

Confirm fit with the exact lift, runway support width and rail profile. Requires compressed air. Check the supported vehicle-end load and approved lifting points.

Accessory rating: 6,000 lb. This rating does not increase the lift rating.

Included equipment and standalone accessory versions can differ. Confirm the exact model and supplied configuration before ordering.
